Education

State University of Novi Pazar · 2023–Present
Software Engineering, final-year undergraduate · **GPA 9.59/10**

Technical Skills

Languages & Web · C#, JavaScript, SQL, HTML/CSS
Frameworks & APIs · ASP.NET Core, React, Entity Framework Core (EF Core), REST APIs
Data & Tools · SQL Server, relational database design, Git, GitHub

Client Experience

DIYAR · Independent Client Web Project · Live site · Case study

- Delivered a public real estate website in Next.js and TypeScript using AI-assisted development. Worked directly with the client to define the brand and refine the site.
- Built a listing admin panel backed by PostgreSQL and Drizzle ORM, with Gemini-assisted translation to generate English drafts from Serbian descriptions.

Selected Projects

GiveBack · Advanced Databases, university project · Source code

- Independently designed the conceptual and relational models for volunteer opportunities, applications, and service hours, then implemented the schema in SQL Server with EF Core.
- Built an ASP.NET Core API using Clean Architecture, CQRS with MediatR, and FluentValidation to validate incoming commands and separate reads from writes.
- Connected the React client to the API for volunteer applications, hour logging, and organization reviews. Implemented role-based authorization and JWT refresh tokens.

ServisPro · Software Engineering, university project · Source code

- Independently built an auto service booking system with a React client, ASP.NET Core REST API, and SQL Server schema for vehicles, workshops, and appointments.
- Implemented booking and service workflows for three roles. Customers request appointments, workshop staff manage bookings, and administrators approve providers.
- Wrote requirements, architecture notes, and frontend tests for authentication and route guards.

Achievements & Leadership

First Place, 3rd UNINP Hackathon · April 2026 · Oranž

- Proposed the concept for an AI study platform on a four-person team, tested the app, and initiated the live QR code demo during the team's presentation.

Sandžak Scout Troop · Member since 2020

- Advanced from member to scout leader, coordinating group activities.
